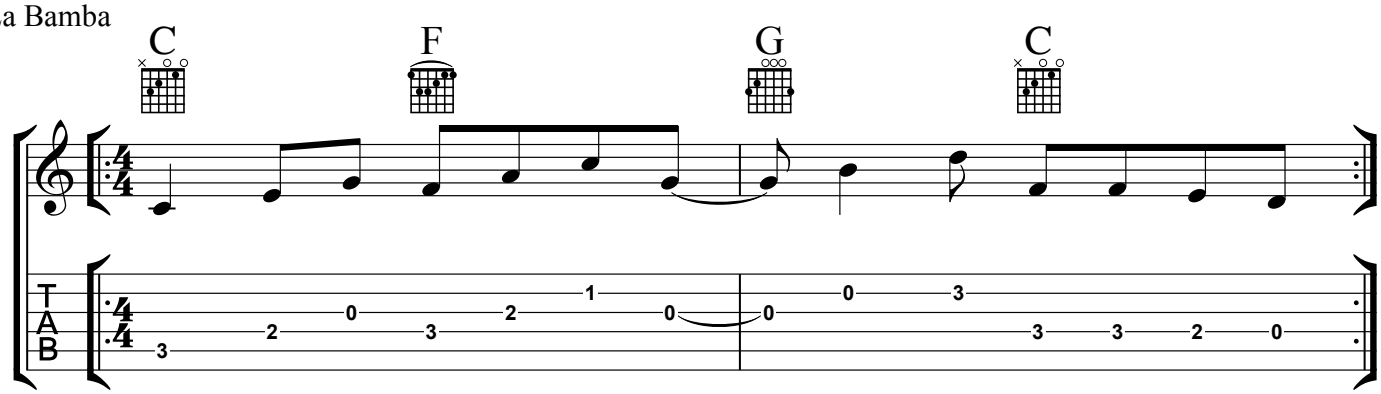
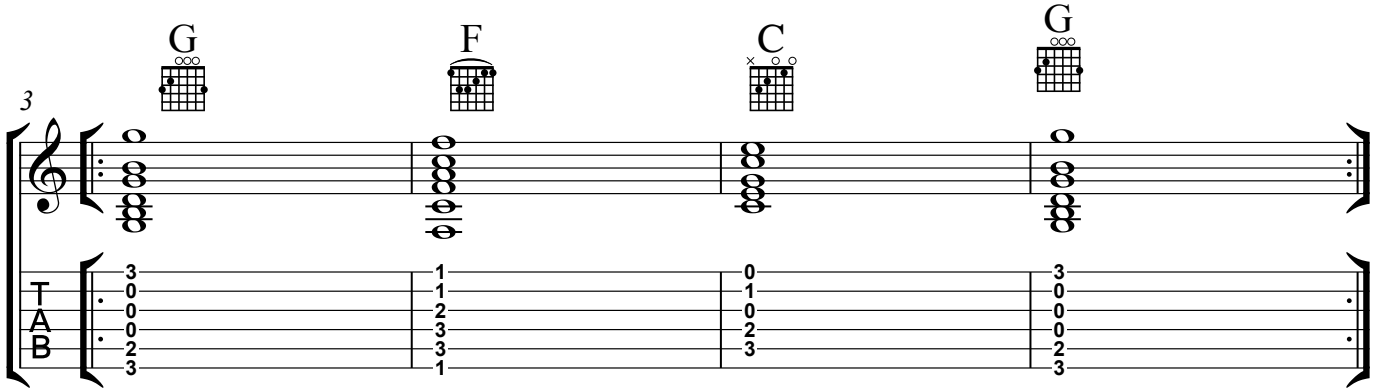
# Three Chord Trick Tunes in C

There are three major chords in every major key, they are built from the 1st, 4th and 5th degrees of the Major Scale.
The chord scale of C is as follows: C, Dminor, Eminor, F, G, Aminor, Bdiminished
(remember every note in each of these chords is from the scale of C major because these chords are bulit from that scale)
There are many songs build from the three major chords, see below for a small selection:

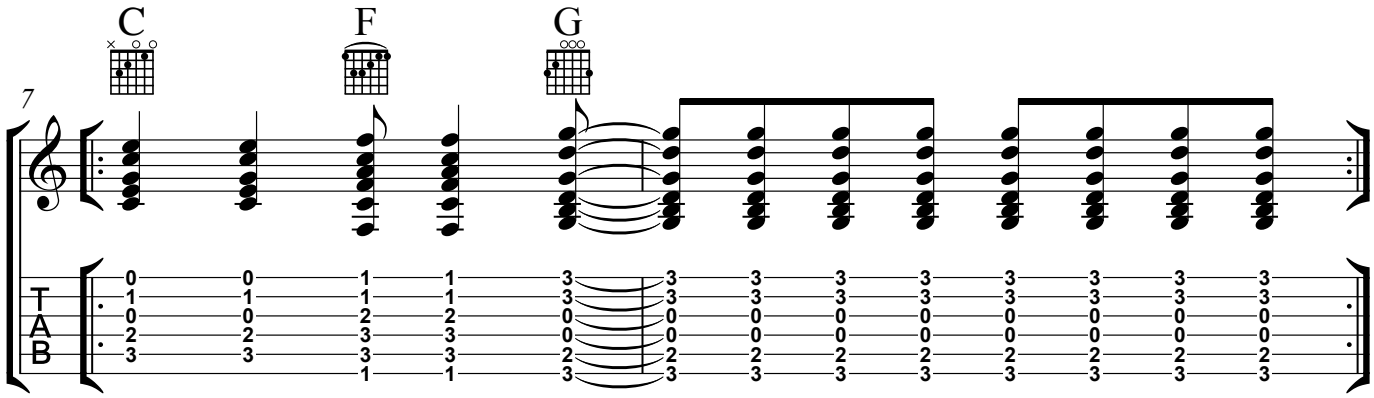
La Bamba

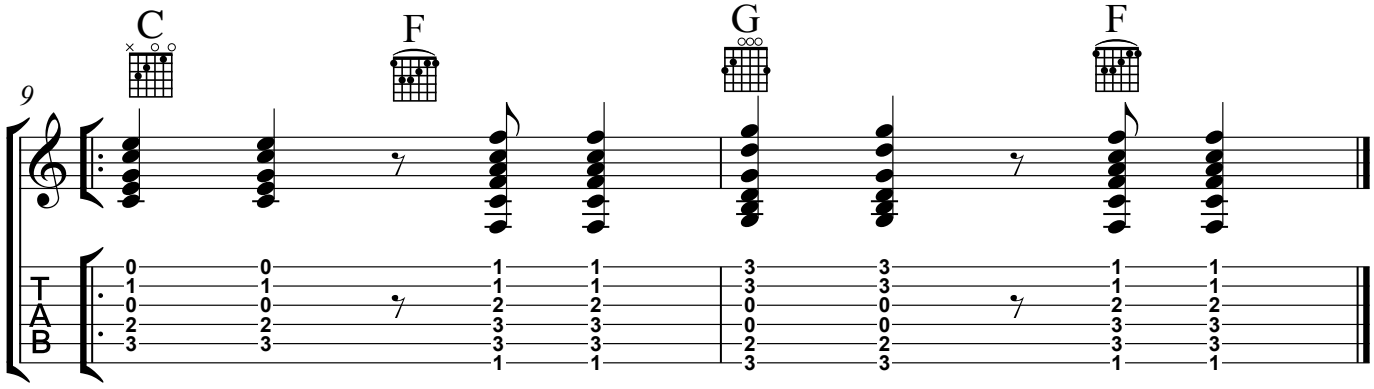


Sympathy for the Devil - verse



Twist and Shout





Wild Thing
